- 4+ Years of working with Visual Studio Code
- Some Python experience
- Version Control
 - Git
 - GitHub

EDUCATION

DEPAUL UNIVERSITY

Chicago, IL

Mathematics & Computer Science Software Engineering (Jul 2020)

- **GPA:** 3.58
- **Relevant Coursework:** Data Structures, Design & Analysis of Algorithms, Computer Systems, Object-Oriented Software Development, Software Projects
- **Project(s):** "chefhack" (Group Project)
 - A web application built with flask for python where users can generate custom recipes as well as scrape existing recipes from popular recipe websites
 - **Grade Received:** A

- **Instructor Feedback:** “(a) You built the *entire* project with highly integrated but completely *remote* collaboration. You never met in person because of the lock-down! (b) This environment was sprung on you at the last minute, and I largely relied on you to figure out how to use and develop your own collaboration tools and techniques. (c) We maintained all the traditional standards throughout and you *delivered*. This recommends your resilience under adverse conditions. Very nicely done! Great work.”
- **Documentation Booklet:**
https://docs.google.com/document/d/1A7jt5c8X4TSYC65VpT6K0Q7qzUSjq_7Eg4dQvDBTPPE/edit?usp=sharing
- **Extracurricular Activities:** The National Society of Leadership and Success

EXPERIENCE

Nordstrom
